

1. The keyboard can be used with personal computers equipped with USB-connectors.
2. It is better to connect the keyboard when the computer is turned off.
3. It is not recommended to use high temperatures for drying keycaps and other plastic parts.
4. If for any reason you spilled liquid on the keyboard, IMMEDIATELY shut it down and dry it for 48 hours.
5. Despite the fact that this does not affect the warranty, take care of your keyboard.

The crossed-out wheeled-bin symbol means that you must not dispose of this product together with unsorted household waste. As electrical devices, this product and its accessories may contain hazardous substances that could harm to your health if not disposed of correctly, please dispose of these products separately. As the end user, you are required by law to dispose of used electrical equipment at an official recycling point. For information on the location of an official recycling point, please contact your local authority, the site or the business where you purchased this product. By disposing of electrical products at an official recycling point, you are doing your bit to ensure equipment is recycled correctly and professionally, protecting the environment and your own safety. Please do not dispose of any batteries before disposing of the device. Under law, as a user you face risk of penalties if you dispose of devices and batteries illegally.
